Coaching

WHO WILL BE ATTENDING?

The conference in Perth is expected to attract over 100 delegates from over 30 organisations, including speakers and delegates. Approximately 18-20 per cent of attendees will come from overseas, one-third of Australian attendees will come from interstate and will be attending the conference virtually. Two-thirds of attendees will be from Perth and will attend in person. The conference will attract stakeholders from various industries, including mining, oil & gas, higher/international education, finance & investment and agriculture, health and property investment, as well as government representatives, trade and investment and NGO representatives.

OUR FOCUS

The conference will focus on increasing awareness and visibility of African professionals (Diasporas) and their contribution to the economic growth of Australia and Africa.

The long term focus is establishing a system that will connect investment projects with the private sectors in Africa and Australia for inclusive development.

As the emerging social, economic, technological and geopolitical changes play out, African Professionals, entrepreneurs, educators and communities will need to gain insight and apply expert knowledge and skills if they are to manage potential disruption, achieve positive influence and become adept global citizens.
